

# TILEVISION® TV19 Second Fix Kit

The Second Fix Kit for the TileVision® TV19/FR1 consists of the parts as shown below:

*TileVision® screen assembly with four Velcro self-adhesive strips to secure the unit into the back box before the TileVision® is sealed in place with silicone sealant (not supplied).*

*Mirrored acrylic surround with peel-off protective covering.*

*The surround can be used to cover the junction between the tiles and the back box. It is fixed in place using silicone sealant (not supplied).*

*Waterproof full-function remote control with 3V lithium cell ready installed. An insulating disc must be removed to activate the remote control.*

*Transparent self-adhesive remote control holder.*

*Standard full-function remote control with AAA batteries (not waterproof).*

*Comprehensive 56-page installation and operating instructions*
