

TILEVISION® TV19 Second Fix Kit

The Second Fix Kit for the TileVision® TV19/FR1 consists of the parts as shown below:

TileVision® screen assembly with four Velcro self-adhesive strips to secure the unit into the back box before the TileVision® is sealed in place with silicone sealant (not supplied).

Mirrored acrylic surround with peel-off protective covering.

The surround can be used to cover the junction between the tiles and the back box. It is fixed in place using silicone sealant (not supplied).

Waterproof full-function remote control with 3V lithium cell ready installed. An insulating disc must be removed to activate the remote control.

Transparent self-adhesive remote control holder.

Standard full-function remote control with AAA batteries (not waterproof).

Comprehensive 56-page installation and operating instructions
